

Here's a **simple guide** for setting up, buying and managing Bitcoin (BTC), Ethereum (ETH), and many other tokens into a **Phantom Wallet** or **Exodus Wallet**, after purchasing through our platform **DSBC**.

Step 1:

Buy Crypto on DSBC

1. **Choose to Buy Crypto:** In the drop-down menu select Bitcoin (BTC), Ethereum (ETH), or any other coin or token you prefer.
 2. **Choose Crypto to Buy:** Select Bitcoin (BTC), Ethereum (ETH), or any other coin or token you prefer.
 3. **Enter Purchase Amount:** Specify the amount in the denomination of your currency you want to buy.
 4. **Create an account or Log in to your account.**
 5. **When prompted, enter a wallet address** for your purchase to deposit to. (If you don't have a wallet, go to **Step 2**, and choose one of the **2 options in Step 2 below**).
 6. **Complete Payment via MoonPay interface:** Follow the instructions for payment using a debit/credit card or other supported methods.
 7. **Receive Transaction Confirmation:** Once the purchase is successful, you'll get a transaction ID and a link to see the confirmed transaction on the specific blockchain of the asset you purchased.
-

Step 2:

Choose a Wallet (Please pay careful attention to your 2 options below, choose the one most tailored to your liking).

Option 1: Phantom Wallet (if you plan on purchasing Solana (SOL) or any Solana based token like our DSB token, the Phantom wallet supports tokens on the Solana blockchain.

Please note as of 1-15-2025 the Phantom wallet supports these 4 digital assets ONLY:

- Bitcoin (BTC)
- Ethereum (ETH) and all ETH based coins and tokens known as ERC-20
- Solana (SOL) and all Solana based coins and tokens known as SPL22, like our DSB token
- Polygon (Poly)

Option 1 Phantom Wallet:

- **Mobile:** Download the Phantom app from the [App Store](#) or [Google Play](#).
- **Browser:** Add the Phantom extension from the [official website](#).

1. Set Up Your Wallet:

- Open the app/extension and select **Create a New Wallet**.
- Write down your **recovery phrase** and keep it safe (if you lose this code and forget your password your assets will not be able to be recovered).
- Set a password (if applicable).

2. Copy Your Wallet Address:

- Select **Bitcoin, Ethereum, Solana** or **Polygon** under the assets tab.
- Tap **Receive** and copy the wallet address that shows up.

3. Deposit Crypto:

- Paste the copied address into DSBC's **Wallet Address** field during the purchase (in step 1 above).
- Complete the transaction, and your crypto will be deposited into your Phantom wallet.
- Receive Transaction Confirmation: Once the purchase is successful, you'll get a transaction ID and a link to see the confirmed transaction on the specific blockchain of the crypto you purchased.

Option 2: Exodus Wallet (Exodus supports more than 30 different blockchains including SOL based tokens like DSB)

1. Download Exodus:

- **Desktop:** Download from [Exodus Website](#).
- **Mobile:** Get the app from the [App Store](#) or [Google Play](#).

2. Set Up Your Wallet:

- Open Exodus and select **Create a New Wallet**.
- Follow the steps to secure your wallet with a recovery phrase and password.

3. Copy Your Wallet Address:

- Go to the **Bitcoin, Ethereum, or Solana** tab in the wallet.
- Click **Receive** to copy your wallet address.

4. **Deposit Crypto:**

- Paste the copied address into DSBC's **Wallet Address** field during your purchase.
 - The funds will arrive in your Exodus wallet.
-

Step 3: Verify Deposit

- Open your wallet app (Exodus or Phantom).
- Navigate to the respective crypto tab.
- Confirm that the purchased crypto has been deposited successfully. Receive Transaction

- Confirmation: Once the purchase is successful, you'll get a transaction ID and a link to see the confirmed transaction on the specific blockchain.
